

Mahesh Kasindi

Full Stack Developer

Maheshkasindi@gmail.com | +91 9573293190 | Visakhapatnam, Andhra Pradesh, 531001

PROFESSIONAL SUMMARY

Full-stack developer with 4+ years of experience specializing in internal tools and applications that empower teams and streamline business operations. Expertise in modern web technologies, front-end frameworks, back-end systems, and cloud infrastructure, with a focus on building internal apps for workflow management, inventory, and business processes. Proficient in leveraging AI tools to accelerate development and solve complex problems.

TECHNICAL SKILLS

Frontend Development: Next.js, TypeScript, JavaScript, HTML/CSS, Tailwind CSS, Bubble, WeWeb

Backend & Database: Python, SQL, Supabase, REST API, Wasabi, Google Cloud Run

DevOps & Cloud: Git, CI/CD, Vercel, DigitalOcean, AWS Lambda

APIs & Integrations: Stripe, Postmark, Twilio, Docparser, OpenAI, Whisper

Methodologies: Agile, Performance Optimization, UI/UX Design, AI-assisted Development

EXPERIENCE

Full Stack Developer, Freel

Feb 2026 – Present | Remote

- Building a comprehensive SaaS platform for freelance developers to manage projects, track time, generate invoices, and showcase portfolios.
- Implementing serverless architecture with real-time database and AI-powered development workflow.
- Technologies: Next.js 15, TypeScript, Supabase, AWS Lambda, Vercel, Tailwind CSS, Claude Code

Full Stack Developer (Contract), Contour

May 2022 – Jan 2026 | Remote, US based

- Built internal tools for operations teams using Bubble, WeWeb, and Supabase to streamline business processes.
- Optimized performance across database queries, API calls, and front-end rendering to improve system responsiveness.
- Set up CI/CD pipelines and manage deployments to accelerate release cycles.
- Leveraged AI/LLM tools extensively for faster development and automation of complex workflows.

Key Projects:

- **Bench Equity - Loan Management Platform:** Built loan management platform for real estate builders and developers. Developed dynamic form system where admins can modify questions, application dashboard, and comprehensive user management. Technologies: Bubble, Dynamic Forms, Admin Dashboard, User Management

- Wheeler - Healthcare Management System: Developed pediatric and orthopedic hospital system with multiple brands. Built user-facing websites and internal tools for doctors to record notes, manage patient information, and handle billing. Technologies: Healthcare, Internal Tools, EHR, Billing, Whisper

Full Stack Developer, Prepwork

Nov 2024 – Apr 2025 | Remote, US based

- Built food delivery platform for home chefs, automating orders, payments, subscriptions, and customer communication for meal prep businesses.
- Integrated Stripe for payment processing, Twilio for SMS notifications, and Postmark for email communications.
- Designed and implemented subscription management system with recurring billing and automated renewal workflows.
- Technologies: Bubble, Stripe, Twilio, Postmark, Automation, Subscriptions

Bubble Developer (Freelance), Cappelendimyr

Oct 2021 – Jul 2025 | Remote, Norway based

- Built a comprehensive ERP system to manage business operations, inventory tracking, and workflow automation.
- Integrated multiple third-party APIs for payments, notifications, and data synchronization.
- Designed automated workflows in Bubble to streamline business processes and reduce manual intervention.
- Conducted comprehensive testing and bug fixes to maintain system reliability and minimize downtime.
- Technologies: Bubble, ERP, Inventory Management, Workflow Automation

Bubble Developer (Contract), Savd Technologies

Jun 2021 – May 2022 | Remote, Mexico based

- Built a complete food delivery application for reusable containers from scratch, handling all aspects including design, database architecture, workflows, and third-party integrations.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Vignan's Institute of Information Technology

May 2015 – Jun 2019 | Visakhapatnam, Andhra Pradesh
